## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 27-37 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 02/11/2008.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 16-26 are rejected under 35 U.S.C. 102(b) as being anticipated by US 3706278 issued to Stiefel et al. (hereinafter "Stiefel"). Stiefel discloses a stemming apparatus comprising a member (bullet 12), a first propellant charge 16 and a second propellant charge (20, 22, 24). A firearm (initiator) strikes the first propellant charge 16 which ignites second propellant charge 20, 22, 24. The member (bullet 12) has a tapered and conical leading edge. A person (control means) operates the firearm (the firearm inherently includes components that act to fire a gun at a predetermined time after pulling of the trigger).

### ***Response to Arguments***

4. Applicant's arguments filed 06/24/2008 have been fully considered but they are not persuasive. Applicant's recitation of "for use with a first propellant" is directed to

intended use. These are apparatus claims and the only device being claimed is one having a member, a propellant charge and an initiator. The suggestions of a "first propellant charge" does not serve to distinguish over the prior art.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
